49th Year

*Family Owned
& Operated*

Dear Friend,

Welcome! I cordially invite you to visit our historic packinghouse and citrus shop located at 2001 N. Kings Highway in Ft. Pierce, FL. We'd love to meet you! Enjoy a free glass of our own freshly squeezed orange juice in the gift shop and tour the packinghouse.

After 49 years, we still do things the old fashioned way — *did you know that these days, 9 out of 10 so-called gift fruit companies, don't grow fruit or even own a packinghouse? They're mostly website order takers who forward your precious gift list to fulfillment centers for shipment.*

You deserve better! You can still trust Al's to pick, pack and ship your citrus ourselves. If you demand consistently good fruit and unequalled service you've found it. Our simple pledge — let everything we do be a blessing to our customers.

Folks say so many nice things, but one gentleman from Concord, Massachusetts really touched my heart when he wrote:

Al Schorner, Founder

Al's grandson, Matt, showing off Temple crop

"We're always so very pleased with your delicious products and kind service. It feels like family and that's much to be cherished these days." I too, feel like you're a part of my family. While Dad was alive we worked together everyday. I'm 2nd generation. My sons represent the 3rd, with Matt helping Sharon and I full time. Although Al passed away in 1987, I still practice what he and the Lord have taught me. Look over my guarantee. It's the best in the business! Dad wouldn't have wanted it any other way.

The Schorner Family

Our Guarantee

If for any reason you're not pleased, simply let us know promptly, and we'll make it right with your choice of either a replacement or a refund. We guarantee to please you, no matter what!

“Classic” Indian River Ruby Red Grapefruit

Here’s the recipe for growing the world’s most sought after grapefruit. Start with special soil, add loads of warm sunshine, a non-stop Atlantic sea breeze and a minimum of 8 years painstaking, tender loving care before the harvest. The result: Plump, thin-skinned, seedless, sweet & juicy grapefruit that never need sugar, guaranteed.

100% Indian River, they just get sweeter as the season goes on. *(Available Late Oct. thru April, occasionally May)*

Al's Family Farms®

Al's Honeybells

The season begins in January!

Unique, very rare with a taste that's "out of this world," best describes our fabulous Honeybells. They're so rare, in fact, that less than one person in 5,000 has ever been lucky enough to taste this delicious fruit.

As a Florida grower, packer and shipper for over forty years, Al's knows the difference between good Honeybells and ordinary ones. We never clip your Honeybells until they're fully tree-ripened and amazing!

What exactly is a Honeybell? A specially developed hybrid orange, with a distinctive balance of citric acid and fructose that we guarantee to be incredibly juicier and more delicious than any other orange variety you've ever tasted.

Why are Florida Honeybells increasingly rare? Only a handful of special groves remain along the Indian River that can grow them. Once they're ripe we can't pick them! Instead, we must carefully clip them off the tree by hand to prevent damaging the delicate "bell" of the fruit.

Both our Florida and U.S. Honeybell crops are tested weekly for sugar content before harvesting. Since Honeybell ripening schedules vary widely by region we do not promise arrival dates on Honeybells. What we do promise is to ship only great tasting fruit! Taste determines what region and grove gets picked first.

Ray's granddaughter, Emma (wearing her bib), enjoys a Honeybell while playing in Al's O.J. Corral

"I shared a Honeybell with my friend the other day. Today she called me, her voice subdued, almost reverent to ask: 'What in the world was that heavenly thing?'..."

— B. Bruce, Washington, DC

When they arrive, get ready for a treat... tear open the box and quickly place a few Honeybells in the fridge to chill if you've got the patience (if not, we understand; better have a towel ready too.) Honeybells are a snap to peel and eat, so take a really big bite and say Ahhh...the pleasure is indescribable!

Reserve your box now!...

First orders in are the first orders out. You can trust Al's to wait until fruit is fully ripened and tastes great before we pick, pack and ship it. We typically start in Florida and finish in the West in early March.

Two Delicious Shipments— "Early & Late Honeybells"

Early Pride Mandarins are one of the rarest mandarins in the world. So rare that less than 1 person in 10,000 has ever even tasted one.

These tangerines became an early season hit last Fall. It's an easy to peel mandarin that's sweet, juicy, and seedless! (Few or no seeds)

Their season starts early but is super-short. Early Pride shipping should begin around mid-October and by Thanksgiving they'll be gone.

GLORY ORRI Mandarins

"A big favorite in high demand"

Our newest, locally grown hybrid, these awesome Florida mandarin oranges are back! So well received by loyal citrus lovers last year. Those who tasted Glory Orris for the first time were rewarded with an amazingly unique, super-sweet, virtually seedless orange. So delicious and easy to peel that we named them "GLORY ORRIS" (SolZest®) after our beloved, Glory Grove. *(That's Matt Schorner's favorite grove).* You just might re-nickname them "Sugarines"...yes they're just that sweet. One bite and you'll be hooked. Don't delay- their season's short but sweet!

Also available mixed with Red Grapefruit.

Supplies limited, so please order Glory Orris early. Available late Nov. - early January.
